Kingston, Jamaica (W.I.) May 8th, 1857.

My Dear 27 Friend. Although you may have forgotten me as a Clerk in Anti Slavery Office in Newyork in the time of Wright &c., H.G. Williams and others, yet I remember you to well to expunge are your dear memory at any Heart as the Chief of our abolitionists from the earliest days of our cause to the present: and above all your universal Catholic Christianity and charity that I have ventured with confidence to seek your influence and aid to put my Mother, Wife and young Children who are in great distress and want here in account of my not doing anything for Several months as I am not able to get a place of any kind the Cholera having prostrated business of all kinds and placed many in need who formerly were to support themselves and family respectably and decently. such is my case and the great jealousy exercised towards Strangers in Keeping them from raising at all. I am quite assured in that you will do all you can with the Abolitionists of the Old Bay State whose generosity in every good cause towards the Coloured race is proverbial. and knowing that wherever your dear influence is given is always successful - may I claim it in my case - presuming on your well known goodness to all mankind. If I had a small amount of aid in money and thing, I could get a small shop near the wharf where the American Steamers from California with a large number of passengers come weekly, and sell it on the Temperance principle cheaper than is generally sold to them. and make with my old Mother and Wife & Pickely & preserves, an

and fruit do a very decently business - but it requires a little means to begin with - could any friend apart (with a little pecuniary means, a little provisions, Crackers on credit from some Wholesale, I would be able to make return as that time & also Stamps in small quantities as I may require. and set up what would be a new thing here "A Temperance Eating House &c. Should the friends of the Coloured race in Liverpool wish me they may depend on my punctually and reclude in business. and they would never have cause to repent of their well-bestowed kindness. Please write me soon - through the post here that can very much. Hoping yourself and family is well as Yourself.

I am Sir Yours Truly.

Henry W. Davison.
